

Group 1 fire rated decorative panel for internal linings

Product Description

FireHoop is the perfect solution for projects requiring a Group 1 fire rated panel with a premium timber look. FireHoop is specifically designed for internal cladding applications such as schools, hospitals, aged care, and general commercial where a high fire rating is required. Made with a non-combustible core, FireHoop has a range of acoustic options and timber look finishes including Natural Hoop, Blackbutt and Spotted Gum. FireHoop is tested and certified to AS5637.1, with a concealed fixing system also available.
